BOND

From Miami with Love...

Introducing Bond... bold, sophisticated, and oozing with confidence. Statement pieces to add luxury to a modern environment, Bond is a collection of illuminated cylinders formed by handcrafted glass set within a silhouette, beautifully lit from within, spanning space vertically or horizontally.

Wrap Bond with one of our American studio glass options —

Diamond Blanket: using naturally faceted crystal frit, thermally induced to an exact heat, creating a blanket of sparkling crystal.

Bahama Sand: fused layers of opaline white glass, capturing a natural micro pebble finish, reminiscent of shells in the sand.

Choice of four finishes: Two-tone finish in Silver Leaf & Black or Gold Leaf & Black, single finish in Standard Gold Leaf or Standard Silver Leaf.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

In all studio glass, slight variations in shape, size, markings and bubbles are inherent in the process, and are the characteristics that distinguish handmade studio art glass from mass produced glass work.

TERRA

The natural beauty of our Terra glass is featured in our new introductions in its purest form; the heroic glass skillfully suspended by the minimal metal frame.

Pendants feature parallel glass forms in clear or glazed with gold leaf, enhancing the visual contrast of the highly polished edge against the rich texture of our hand-cast studio glass. Pendants are available in three "Standard Finish" options: Soft Gold Leaf, Silver Leaf, and Black Iron. All for indoor use only.

This collection also features multiple sconce sizes and a flush mount. The versatile design of these fixtures can be used on ceilings or walls, horizontally or vertically. Choice of three finishes: Standard Soft Gold Leaf and Standard Silver Leaf for indoor use only, and a hand-rubbed black iron for indoor and outdoor use with clear or gold leaf glass.
