PRECIOSA SIGNATURE DESIGNS

PRECIOSA

PRECIOSA

Signature *Designs*

We can create unrivaled emotional experiences by combining the traditional artform of chandelier craftsmanship with cutting edge technology. This knowledge is what drives our intention to unveil the symbolic as well as the aesthetic power of decorative lighting. It led us to create Preciosa's Signature Designs which are highlighted by countless customization possibilities to perfectly fit the owner's desires.

What makes a Signature Design so strategic is the variations that can be developed. Each concept offers different scales, compositions, colours, materials and surface finishes, construction principles and illumination methods.

Signature Designs enrich the vignette of a space to create unexpected emotions that become etched in people's memories. This is the highest level of chandelier cultivation - to create connecting experiences through light.

Inspiral

Inspiral is inspired by calligraphy, writing with light. Like drawing through space, Inspiral becomes a ribbon of light as it sweeps through a room.

Each Inspiral light is created from a specially formed stainless steel ribbon that can be bent and shaped as desired. A LED strip comprised of small diodes lines the edges of the ribbon. Different colour combinations can be used to create distinct moods or to suit a specific colour palette.

Flexible design concept

Signature Designs are an exclusive concept that allows designers to completely customize our lighting designs for their space. They make creating a customized light a convenient and intelligent way to include creative lighting in your design.

Be inspired by our sample compositions and customize them to the size of your space, or create your own shape for a one-of-a-kind look.

COLLABORATE WITH THE PRECIOSA DESIGN TEAM

Whether you adapt any of the original compositions or create your own individual design, Preciosa's design team can help. Show us your space and outline your idea and we will prepare drawings and 3D data.

BRING INSPIRAL TO LIFE

Here we share examples of how different compositions can look in a space. Each image shows how one of the suggested designs has been customized to fit the designer's vision and space.

Construction principles

Preciosa's Inspiral construction alternates crystal prisms to create overlaps. This structure avoids gaps that could cause hotspots and gives the crystal ribbon a harmonious appearance. The arrangement also offers maximum flexibility as curved geometries can be achieved.

MARITIME

Inspiral is maritime compatible which means it can be engineered to meet the safety requirements of yachts and cruise ships. It is also suitable for seismic active regions.

Lighting effects

STATIC LIGHTING

LED chains are behind the crystal prisms. This creates Inspiral's characteristic crystal lighting effect and produces a decorative, atmospheric light.

DYNAMIC LIGHTING

Dynamic light scenes are computer-composed which addresses SPI-controlled LED chains including the option for RGBW.

Preciosa *Lighting*

Preciosa Lighting elevates the heritage of Bohemian crystal through contemporary lighting designs. The company is built on centuries of tradition and the unique art of master glass makers from Crystal Valley, Bohemia. Crystal Valley's natural wealth and local craftsmanship and talent mean the region's glassmaking traditions have remained unspoiled for centuries. We honour this heritage and craftsmanship by creating innovative lighting products that stand the test of time. Preciosa Lighting is part of the Preciosa Group, one of the world's leading companies in the field of high-precision cut crystal components.
